ORDERING OF CIRCULARS

The following TEC Circulars were issued by SMMT Vehicle Legislation and Environment Teams, which are a part of the Public Policy and Vehicle Legislation Department during **March 2011**.

In accordance with the SMMT policy on the distribution of documents to its members, the Bulletin and the TEC Circulars it contains are free of charge, and if you require any copies, these can be sent to you electronically via email, and are also available for download from the SMMT website www.smmt.co.uk.

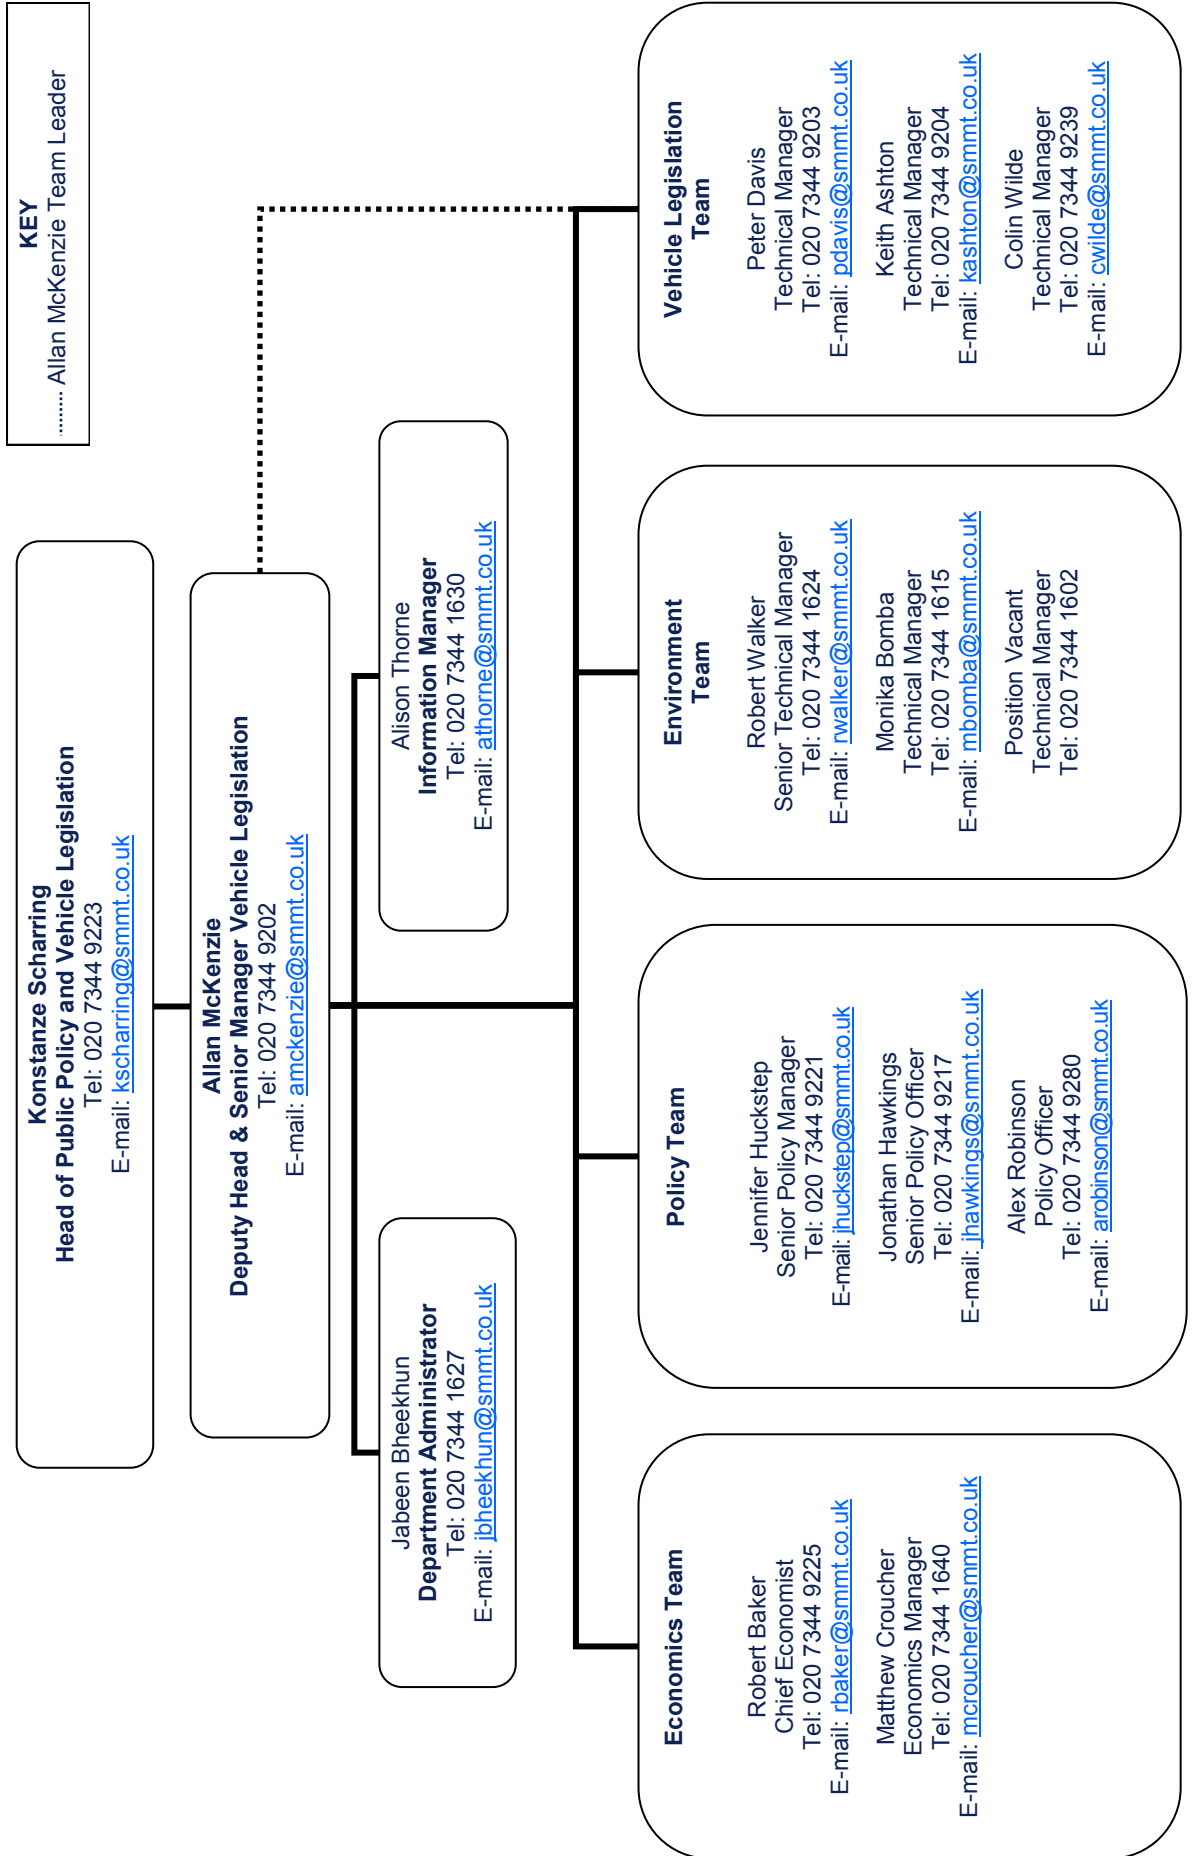

Requests for TECs should be emailed directly to me at: athorne@smmt.co.uk, and I will forward them to you by return of email. We are aware that some email systems may restrict the size of attachments, and the email formatting. If your emails are restricted in any way, please let me know when you request your TECs. In the Bulletin the size of each file is located within its summary.

If, however, you prefer a paper copy there will be a small handling charge of £5 plus VAT for each circular ordered – this covers administration and postage.

If you are a SMMT member and you have received this Bulletin indirectly, you can be added to the mailing list by forwarding your full contact details (i.e. Name, Position, Company name, Address, Fax, Tel, and Email) along with your request(s), to me at the email address above.

Thank you for your co-operation.

DEFINITIONS OF VEHICLE CATEGORIES

Category M:

- M Motor vehicles with at least four wheels designed and constructed for the carriage of passengers.
- at least four wheels or
 - with three wheels and a maximum weight over 1 tonne
 - [articulated vehicles of two non-separable, articulated units shall be considered as single vehicles]
- M₁ Vehicles designed and constructed for the carriage of passengers and comprising no more than eight seats in addition to the driver's seat.
- M₂ Vehicles designed and constructed for the carriage of passengers, comprising of more than eight seats in addition to the driver's seat, and having a maximum mass not exceeding 5 tonnes.
- M₃ Vehicles designed and constructed for the carriage of passengers, comprising of more than eight seats in addition to the driver's seat, and having a maximum mass exceeding 5 tonnes.

Category N:

- N Motor vehicles with at least four wheels designed and constructed for the carriage of goods.
- N₁ Vehicles designed and constructed for the carriage of goods and having a maximum mass not exceeding 3,5 tonnes.
- N₂ Vehicles designed and constructed for the carriage of goods and having a maximum mass over 3,5 tonnes but not exceeding 12 tonnes.
- N₃ Vehicles designed and constructed for the carriage of goods and having a maximum mass exceeding 12 tonnes.

Category O:

- O: Trailers (including semi-trailers)
- O₁ Trailers with a maximum mass not exceeding 0,75 tonnes.
- O₂ Trailers with a maximum mass exceeding 0,75 tonnes but not exceeding 3,5 tonnes.
- O₃ Trailers with a maximum mass exceeding 3,5 tonnes, but not exceeding 10 tonnes.
- O₄ Trailers with a maximum mass exceeding 10 tonnes.

Other Categories:

- CMP Components & accessories
- EFL Engines, fuels and lubricants
- MTL Materials and processes
- MFR Manufacture, service and repair, disposal and recycling

SMMT DIARY OF EVENTS

15 Mar

SMMT Open Forum: Vehicle Manufacturers' View, International Manufacturing Centre, University of Warwick
This event is the 5th in our series of Open Forum events aimed at the mainstream supply chain and follows on from the event we held in September. I am pleased to say that for the first time we will have a number of VMs presenting – this has been a popular request from delegates of the previous events. We have confirmed Richard Parry Jones, and Jerry Hardcastle who will give their updates on the work of the Automotive Council etc. Ian Henry will give an update on the manufacturing outlook. This is a programme that should be of interest to many in the supply chain.

Erbil AUTOSHOW International Automobile, Automotive and Spare Parts Exhibition, Erbil International Fairground, Iraq

Over 150 exhibitors and 7000 visitors are expected at this dedicated, business-focused event to enhance communication and cooperation within the industry. There is no alternative for this event in the region. Therefore, interest from the industry will be immense. The visitors will discover a wide range of vehicles, automotive components, accessories, spare parts, repair and maintenance tools and other products and services as well as getting chances to meet automotive industry professionals. Iraq is in increasing need of industrial production, construction and exported goods. After the war, Iraqi government has declared that they have 230 functional factories and none of them are producing cars, spare parts or accessories. Whether your target is general users, small to medium enterprises, local distributors, large corporations or even government bodies AUTOSHOW International Automobile, Automotive and Spare Parts Exhibition is the right place for you. Take your place in the exhibition and don't miss the opportunity to be a part of the multi-billion dollar Middle East automotive industry.

Low carbon automotive supply chain mission to China, Shenzhen, Guangzhou, Chongqing
The SMMT, in partnership with UK Trade & Investment, is organising a trade mission to China focussed on the low carbon automotive supply chain as we believe this represents great opportunities for UK businesses. On this mission, we will visit three major Chinese OEM companies in three different major city centres, which have a focus on low carbon vehicle technology and development:

- Build Your Dreams (BYD) Auto, Shenzhen
- Guangzhou Automotive Industry Company (GAIC), Guangzhou
- Chang'An, Chongqing.

During the programme there will be opportunity to present to senior Chinese OEM representatives and conduct pre-arranged 1:1 meetings with the OEMs and key members of their local supply chain. Places are limited and the registration deadline closes on March 11 so we urge you to respond as quickly as possible.

DRAFT BRITISH STANDARDS FOR PUBLIC COMMENT – NATIONAL BRITISH STANDARDS

You may now comment on any National British Standard online. BSI British Standards has launched a Draft Review system which allows access to the drafts of all National British Standards. To enhance access of Drafts for Public Comment for the wider community, make comments more visible and move into collaborative working practices, you will now be able to comment on any National British Standard by visiting <http://www.bsigroup.com/drafts>. All you need to do is register. This service is free of charge.

Please note that the only standards available on this service are pure British Standards (National Standards e.g: BS XXXX). European and international documents are not included at this time.

Deadlines for receipt of comments on each of the individual drafts can be found at <http://www.bsigroup.com/drafts>. The deadline for the following drafts is **31 May, 2011** unless otherwise stated.

Should you wish to receive these drafts in hard copy format, they are available for a fee from BSI Customer Services (see 'How to order' on page 2).
