## Webinars

### Free monthly online seminars

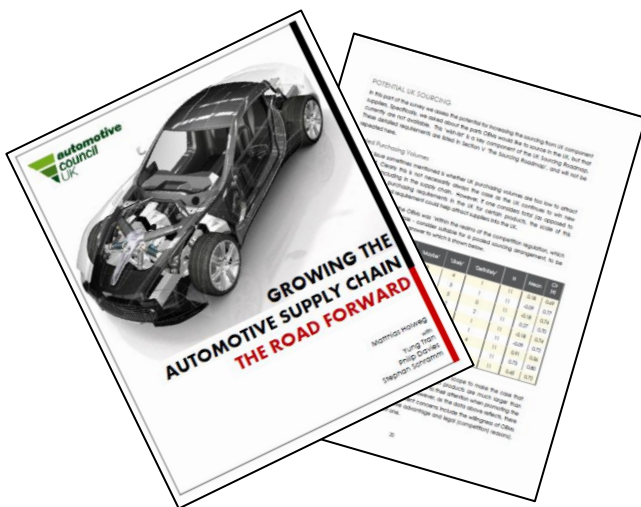

Participants can watch, discuss and ask questions at these topical seminars from your office. These monthly events are chaired by Paul Everitt with expert presenters on each topic. To register for the next webinar or view previous webinar slides, please [click here](#).

Business Opportunities

## UK Sourcing Roadmap

### Identifying significant opportunities for the UK automotive supply base

Launched by the Department for Business, Innovation and Skills (BIS) and developed in partnership with the University of Cambridge, the report serves as a basis for prioritising actions supported by both SMMT and the Automotive Council.

The roadmap identifies several key opportunities for retaining and building supply chain capabilities through visualising the key short-term and medium-term opportunities, as well as the areas where critical support is required. The Sourcing Roadmap report can be found on the Automotive Council website, [click here](#).

## 11th Sustainability Report

### Progress in social, environmental and economic sectors of automotive

The 11th annual sustainability report reveals that UK manufacturing has made significant progress in cutting CO<sub>2</sub> emissions, waste and energy. The report highlights progress in social, environmental and economic sectors of the motor industry through 2009. Automotive accounted for £23.8 billion of the UK's total export values and still employs over 700,000 people. [Click here](#) to download the free report.

Market Intelligence

## New Car CO<sub>2</sub> Report

### Analysis of progress, trends and the future of car and van emissions

The 10th annual New Car CO<sub>2</sub> Report shows ongoing reductions in average emissions of new cars. The report assesses emission reductions year on year dating back to 2000. 2010 figures drop by 3.5% on 2009 and are down by over 20% since 2000. Low Carbon vehicles are rapidly increasing their share of the new car market signalling a positive move for the industry into a greener future. To read more, download for free [here](#).
