

A new evolution for automotive quality management IATF 16949:2016

6th September 2016

Hosted by

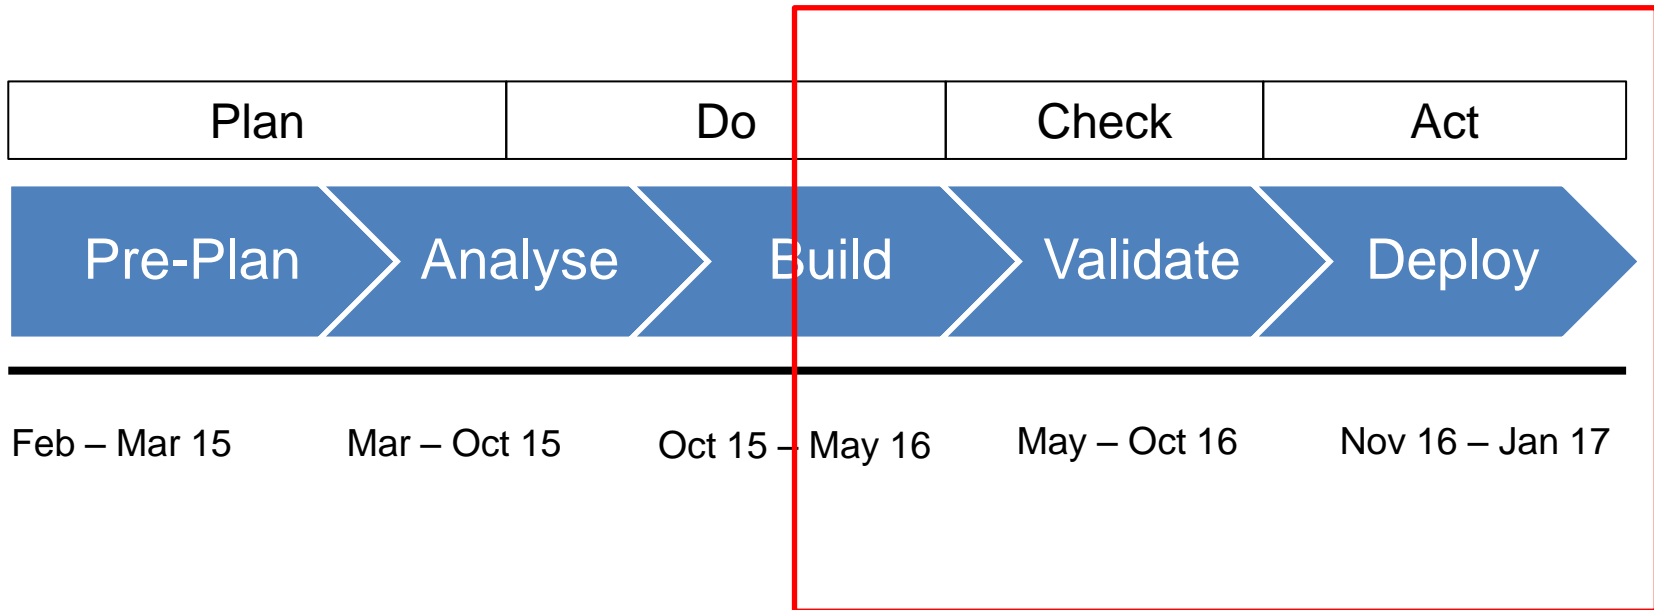

Rob Brown, SMMT IATF Oversight Manager and

Richard Hammond, Principal – Management Tools at SMMT Industry Forum

- During presentations (10:00 – 10:30) everyone will be muted so that only the presenters will be heard.
- The presentation will be followed by a Q&A session. Click on the hand symbol to show that you have a question.
- If you are experiencing any technical problems please call 020 7344 1673.

What's happened since the last webinar?

Aug 16: ISO & IATF joint press release and revised transition process.

Latest News

10 August 2016

Guidance for the transition from **ISO/TS 16949:2009** to **IATF 16949:2016** is in the following document

[IATF 16949 Transition Strategy](#) 

9 August 2016

The attached joint press release represents a win-win for IATF and ISO by communicating the IATF decision to publish the IATF 16949 standard as a separate document and maintaining a strong collaborative relationship between ISO and the IATF going forward

[IATF Press Release](#) 

Additional information about IATF 16949 can be found in the following bulletin

[IATF Supplemental Bulletin](#) 

Joint ISO & IATF Press Release

- In October 2016 **IATF 16949:2016** will be published by IATF and will supersede and replace the current ISO/TS16949, defining the requirements of a quality management system for organizations in the automotive industry. It will be aligned with and refer to the most recent version of ISO's quality management system standard ISO9001:2015.
- **IATF 16949:2016** will fully respect ISO9001:2015 structure and requirements.
- **IATF 16949:2016** is not a stand-alone quality management system standard, but is implemented as a supplement to, and in conjunction with, ISO9001:2015.
- IATF will ensure continual alignment with ISO9001 by maintaining strong cooperation with ISO, through its participation in ISO/TC176.

IATF Supplemental Press Release

- **IATF 16949:2016** represents an innovative document with strong customer orientation. Feedback solicited from certification bodies, auditors, suppliers and original equipment manufacturers (OEMs) shaped the development of this International Standard.
- **IATF 16949:2016** also incorporates common automotive customer-specific requirements.

Why an automotive sector specific standard?

- Allows IATF to control the automotive content,
- Allows IATF to track implementation related issues,
- Allows IATF to provide regular implementation support and guidance through sanctioned interpretations and frequently asked questions,
- Allows IATF the ability to release a revised standard to address weakness and new approaches at more regular intervals
- Note: IATF 16949:2016 does not include the ISO9001 text “boxed” as with the current version of ISO/TS16949:2009

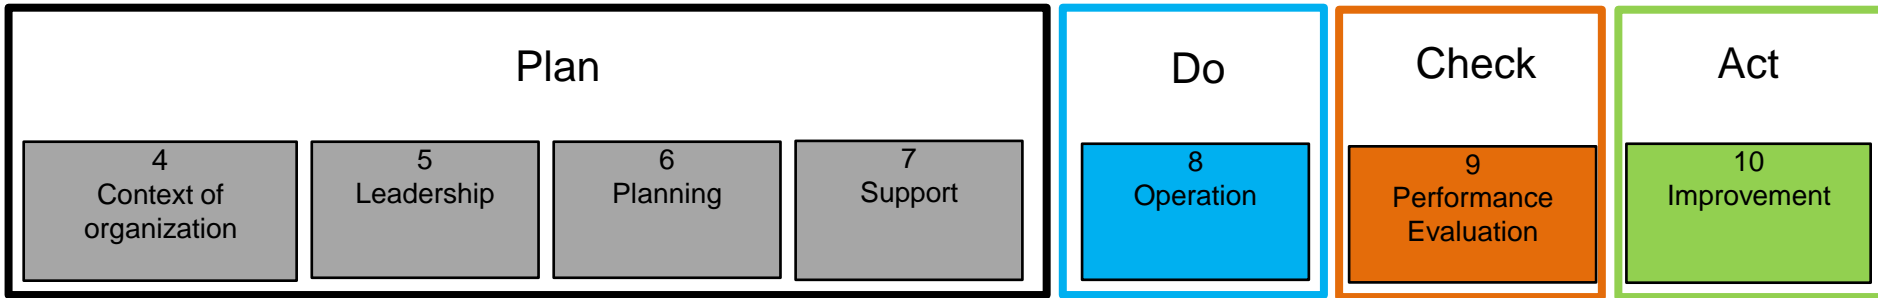

Why launch from 1st October 2016?

- Allows time for organizations to consider implementation and raise questions for clarification and understanding,
- Allows time for certification bodies to consider both implementation and auditability and raise question for understanding,
- Allows IATF to provide guidance and direction to questions related to implementation and auditability through the IATF Oversight offices,
- Guidance and direction will be provided through the regular release of sanctioned interpretations and frequently asked questions via the global oversight website

Linkage to ISO9001:2015

Based on the High Level Structure

- 10 clauses
- Auditable clauses 4 - 10

What's the purpose of the high level structure?

- New requirements for strategic direction
- New requirements for identification of Risk and Opportunity
- Enhanced PDCA approach

How to obtain publications?

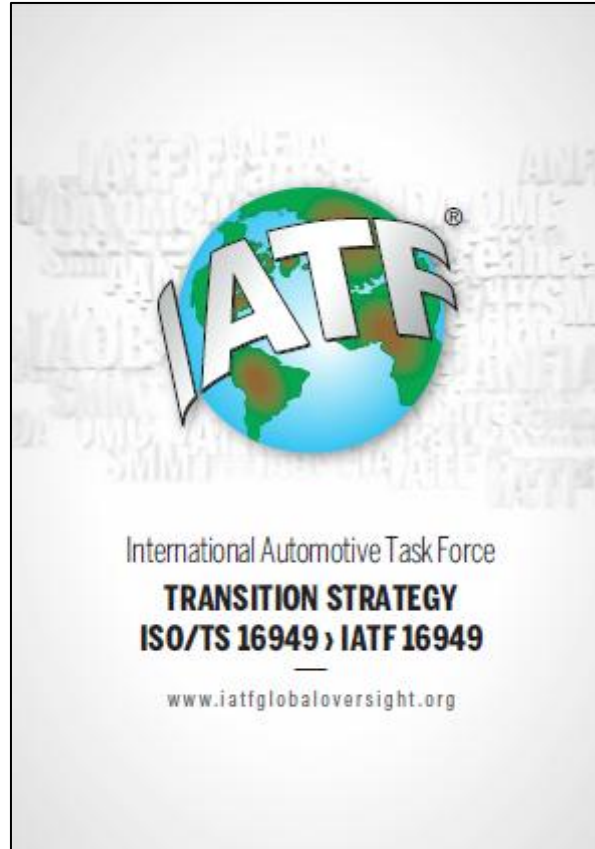

IATF 16949:2016

- available from 1st October 2016,
- available to pre-order off the SMMT website from today,
- staying with the current format A5 ring bound,
- price £25 plus post & packaging,

IATF Rules for Achieving and Maintaining IATF recognition

- available from 1st November 2016,
- further information on ordering and price to follow.

Transition Process revised

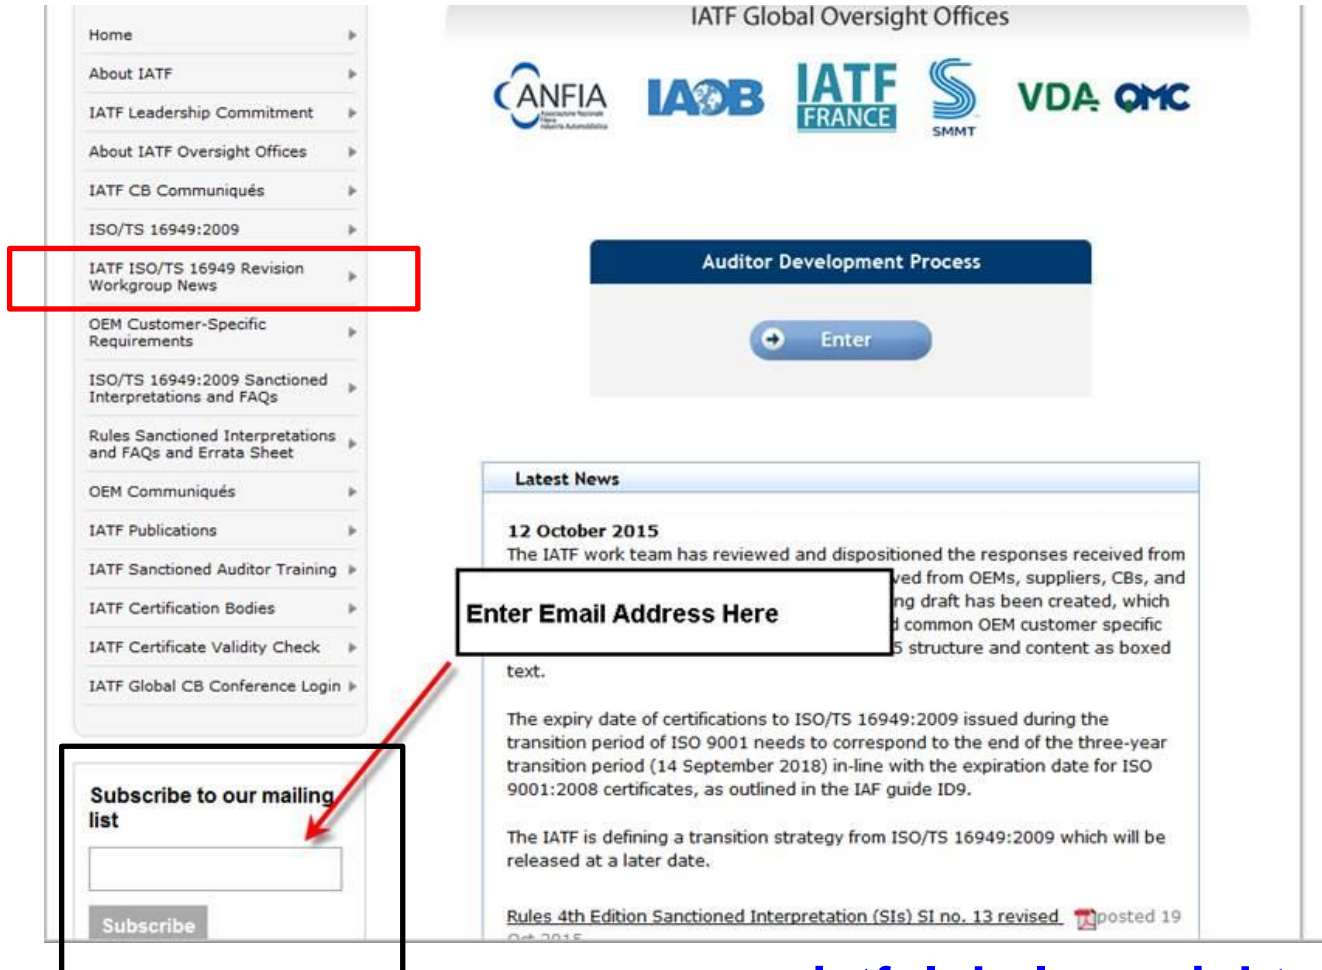

Transition changes

- **Timing requirements:** removal of option 2,
- **Audit time requirements:** need for additional 0.5 – 1.0 day linked to the organization provision of information to support the audit planning process,
- **Audit transition:** clarification, not allowable at a transfer audit,
- **Audits to ISO/TS16949:** cease from 1st October 2017,
- **Certificate decision:** allowed after certificate expiry providing within 120 day requirement is maintained,
- **Continuing updates:** will be provided moving forward.

What's next – timing and implementation?

- **1st Oct 2016:** IATF 16949 becomes available
- **1st Nov 2016:** IATF Rules 5th becomes available
- **1st Jan 2017:** CB audits to IATF 16949 can be conducted
- **1st Oct 2017:** Audits to ISO/TS16949:2009 cease
- **14th Sep 2018:** All current certified suppliers have to complete their transition

How to keep up to date with changes?

The screenshot shows the IATF Global Oversight Offices website. On the left is a navigation menu with the following items: Home, About IATF, IATF Leadership Commitment, About IATF Oversight Offices, IATF CB Communiqués, ISO/TS 16949:2009, IATF ISO/TS 16949 Revision Workgroup News (highlighted with a red box), OEM Customer-Specific Requirements, ISO/TS 16949:2009 Sanctioned Interpretations and FAQs, Rules Sanctioned Interpretations and FAQs and Errata Sheet, OEM Communiqués, IATF Publications, IATF Sanctioned Auditor Training, IATF Certification Bodies, IATF Certificate Validity Check, and IATF Global CB Conference Login. The main content area features the IATF Global Oversight Offices header with logos for ANFIA, IAQB, IATF FRANCE, SMMT, VDA, and QMC. Below the header is a blue button labeled 'Auditor Development Process' with an 'Enter' button underneath. A 'Latest News' section is visible, with a date of '12 October 2015' and a headline: 'The IATF work team has reviewed and dispositioned the responses received from OEMs, suppliers, CBs, and...'. A text box with the text 'Enter Email Address Here' is overlaid on the news content. At the bottom left of the news section, there is a 'Subscribe to our mailing list' form with an input field and a 'Subscribe' button. A red arrow points from the 'Enter Email Address Here' box to the 'Subscribe' button.
